Software for Divyangjan: NVDA

NVDA stands for Non Visual Desktop Access. It is a free and open-source, portable screen reader for Microsoft Windows. The main highlights of this software are;

- Support for popular applications including web browsers such as Mozilla Firefox and Google Chrome, email clients, internet chat software, music players, and office programs such as Microsoft Word and Excel
- Built-in speech synthesizer supporting over 55 languages, plus support for many other 3rd party voices
- Reporting of textual formatting where available such as font name and size, style and spelling errors
- Automatic announcement of text under the mouse and optional audible indication of the mouse position
- Support for many refreshable braille displays, including input of Braille via braille displays that have a braille keyboard
- Ability to run entirely from a USB flash drive or other portable media without the need for installation
- Easy to use talking installer
- Translated into more than 50 languages
